Problem – Solution Fit Framework Overview

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

Purpose of this Canvas:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- Understand the existing situation in order to improve it for your target group.

Book Store Problem-Solution Fit Canvas

1. CUSTOMER SEGMENT(S) CS <i>Who is your customer? (e.g. working parents of 0-5 y.o. kids)</i> • University students looking for local syllabi books. • Avid multi-genre fiction collectors. • Parents hunting for verified child reading levels.	6. CUSTOMER CONSTRAINTS CC <i>What constraints prevent choices? (e.g. budget, network)</i> • Limited spending power and strict budget caps. • Clunky device views during mobile searches. • Unpredictable courier delivery corridors.	5. AVAILABLE SOLUTIONS AS <i>What do they use now? (e.g. pen & paper alternative)</i> • Massive global e-commerce logistics monoliths. • Disorganized second-hand physical outlets. • Public library collections or campus boards.
2. JOBS-TO-BE-DONE / PROBLEMS J&P <i>Which tasks/problems do you address for your customers?</i> • Locating niche authors and text versions instantly. • Verifying condition logs of pre-owned inventory. • Securing affordable textbook package discounts.	9. PROBLEM ROOT CAUSE RC <i>What is the real underlying reason this problem exists?</i> • Book listings lack granular edition / ISBN mapping. • Fragmented catalog storage frameworks across local warehouses. • No single mobile-friendly web view engine.	7. BEHAVIOUR BE <i>What does your customer do to solve the job right now?</i> • Spends hours cycling across separate vendor lists. • Manually calls multiple local desks to ask about stock. • Abandons incomplete digital carts in frustration.
3. TRIGGERS & 4. EMOTIONS TR & EM <i>What prompts action? How do they feel before vs after?</i> Triggers: Course terms opening; book club launches. Emotions: • <i>Before:</i> Overwhelmed & anxious. • <i>After:</i> Confident, excited & in control.	10. YOUR SOLUTION SL <i>How does your product match constraints and solve the job?</i> A unified, mobile-first Book Store application featuring precise catalog tagging, transparent delivery trackers, multi-payment options, and community-curated recommendations.	8. CHANNELS OF BEHAVIOUR CH <i>What kind of online or offline actions do they take?</i> 8.1 Online: Browsing digital e-commerce, joining book forums, checking social review posts. 8.2 Offline: Checking bulletin boards, querying manual stock racks.
