

User Acceptance Testing (UAT) Template

Date	02/07/2026
Team ID	
Project Name	Book Store
Maximum Marks	4 Marks

Project Overview

Project Name:	Book Store
Project Description:	An e-commerce storefront for browsing, searching via filters (ISBN, Author, Genre), managing shopping cart states, and completing secure multi-gateway transactions.
Project Version:	v1.0.0-Beta
Testing Period:	02/07/2026 to 09/07/2026

Testing Scope

Features and Functionalities to be Tested:

- User account sign-up, email verification link, and OAuth Google/Gmail profile routing.
- Catalog keyword lookup index speeds and real-time inventory count status fields.
- Active shopping cart persistency rules and concurrent coupon discount code validation.
- Secure payment processing gateways (Stripe, PayPal, UPI) and auto-invoice document delivery.

Testing Environment

URL/Location:	https://uat.bookstore-platform.local
Credentials (Internal):	Username: test_buyer@bookstore.com / Password: [Secure_Token_123]

Test Cases

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	ISBN Catalog Query Verification	1. Navigate to search query bar. 2. Input standard book ISBN '9783161484100'. 3. Trigger search filter.	The specific title, author, pricing grid, and inventory count render accurately within 2.0 seconds.	Catalog matched the ISBN string and updated instantly.	Pass
TC-002	Cart Checkout Pipeline Routing	1. Add three items to shopping cart. 2. Proceed to payments page.	The payment resolves, order confirmation generates, and a receipt copy is emailed to user.	Transaction processed smoothly; invoice email	Pass

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
		3. Choose secure UPI option and authorize.		arrived in inbox.	

Bug Tracking

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Shopping cart line items vanish when refreshing browser view tab.	1. Add two items to cart. 2. Manually click browser reload button. 3. Inspect checkout tray count.	High	Open / In Progress	Session states must be linked tightly to localStorage or serverless cookies.

Sign-off

Tester Name:	Date:	Signature:
Alex Chen (UAT Lead)	02/07/2026	

Notes: Ensure that all test cases cover both positive and negative scenarios. Bug tracking must maintain explicit step sequences. Final sign-off from both the project manager and product owner is required prior to production deployment pipelines.
